

# BRYSTON

**A Lifetime of Music**

**MEMO: To All Bryston Customers**

**SUBJECT: Bryston BDP  $\pi$  (Pi)**

**February 2016**

**Hi Folks,**

**Just a heads up on a new product we are working on. It replaces the Bryston BDP-1 Digital player.**

## **Little Box Big Sound**

**Built upon the Raspberry Pi and HifiBerry platform, the new BDP- $\pi$  is faster and more capable than our classic BDP-1 yet fits in a chassis 1/3rd as wide as our full size gear and costs less than half of a flagship BDP-2.**

## **Connect**

**Virtually any DAC can be connected via the on-board S/PDIF and Toslink connectors. Also, get ultra high resolution by connecting a USB DAC. You can even connect audio through HDMI.**

## **Your Music**

**Connect an external USB drive containing your music library, stream your favorite internet radio stations, and enjoy lossless TIDAL streaming all on the BDP- $\pi$ !**
